Our enrollment year and risk-based investment options offer portfolios with automatic allocation, diversification and rebalancing. You can also build a well-diversified portfolio with the flexible, customized approach:

The enrollment year portfolios employ a “set it and forget it” approach, with target year options that eliminate the need for investors to exchange funds as they approach the date their plans for helping those they designate come to fruition. The plan offers 25 enrollment year portfolios, from MFS 529 Enrollment Year 2018 through MFS 529 Enrollment Year 2042.

Risk-based portfolios generally have different allocations to stocks and bonds as well as specialty/alternative and cash options that align with a variety of investor goals and risk tolerances. These portfolios are invested in a diversified mix of MFS funds and are rebalanced periodically to maintain alignment with their objective and risk profile.

Keep in mind that no investment strategy, including allocate, diversify and rebalance, can guarantee a profit or protect against a loss. Also, all investments, including mutual funds, carry a certain amount of risk, including the possible loss of the principal amount invested. The principal value of the portfolio options are not guaranteed at any time.

Each 529 portfolio invests in MFS mutual fund(s).

Performance of the MFS 529 Savings Plan's Enrollment Year and Risk-Based portfolios depends on their underlying MFS funds. These funds may be subject to the volatility of global financial markets (domestic and international) and additional risks associated with investing in high-yield, small-cap, and foreign securities, as well as different fees and expense levels associated with investing in these funds. Asset allocation, diversification and rebalancing do not guarantee a profit or protect against loss.

The MFS® 529 Savings Plan is a flexible education savings investing plan sponsored by the State of Oregon, acting by and through the Oregon 529 Savings Board, and is part of the Oregon Treasury Savings Network. Vestwell State Savings LLC® is the Program Manager and record-keeper. The Program Manager may designate other firms to perform certain duties, including the Bank of New York Mellon as the Recordkeeper of the Plan.

MFS Investment Management serves as the investment manager of the plan, and its affiliate, MFS Fund Distributors, Inc. is the distributor. Depending on your state of residence and the state of residence of the beneficiary, an investment in the MFS® 529 Savings Plan may not afford you or your beneficiary state tax benefits or other benefits only available for investments in such state's qualified tuition program. State benefits may include financial aid, scholarship funds and protection from creditors. State tax treatment may differ from federal tax treatment. See your tax advisor to be sure you understand the tax issues related to a 529 plan. Withdrawals of earnings not used to pay for qualified higher education expenses are subject to an additional 10% federal tax penalty. State taxes may also apply.

MFS® 529 Savings Plan Accounts are not deposits or obligations of, or insured or guaranteed by, the State of Oregon or any agency or instrumentality thereof, the United States government, the Program Manager, any financial institution, the Federal Deposit Insurance Corporation or any other federal or state governmental agency, entity or person.

Investment returns are not guaranteed. Your account may lose value. Currently, there is a \$25 annual account fee associated with the MFS® 529 Savings Plan. This annual fee is waived for Oregon residents and to the extent approved by the Board, sub-accounts of Omnibus Accounts. Other waivers may apply; check with your investment professional. Investments in 529 plans involve investment risks. You should consider your financial needs, goals, and risk tolerance prior to investing.

Before investing in the MFS® 529 Savings Plan, consider the investment objectives, risks, charges, and expenses of the investment options.
